

*Opera*TM glass display cases

abstracta

Opera™

Opera glass display cases offer numerous opportunities to meet the colour and material requirements of different interiors and to provide an attractive and exclusive display.

Thanks to its natural materials and simple design, Opera is suitable for both contemporary and more traditional interiors. Opera display cases are ideal in combination with Scala screens.

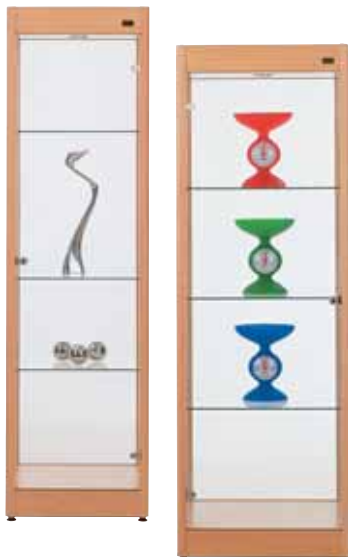

*Scala Light and
Opera V 3*

Opera™

Opera glass display cases are manufactured with a solid beech or birch frame and 5 mm toughened clear glass. Opera is supplied with lockable hinged doors, adjustable glass shelves and feet. Thanks to our eccentric connector, the display cases are easy to assemble using an ordinary Phillips screwdriver. Opera can be supplied stained or painted in RAL or NCS colours, and is also available with a veneered back.

Opera can be supplied with veneered top as an accessory to conceal lighting and protect against dust. If display cases have to be moved frequently, suitable trolleys in adjustable sizes are available. In display cases V 1 and V 3, the lighting is a 12 V/120 W halogen spotlight with transformer. In display cases V 12, V 13 and V 14, the lighting is two 12 V/120 W halogen spotlights with transformer.

Opera V 1

Height of glass is 1580 mm. Supplied with 3 glass shelves.
